PATHOBAN[®] SOLID SURFACE

Seamless solid surface which provides a strong, non-porous, scratch and stain resistant material for architectural designs and utilitarian surfaces.

Pathoban offers bacterial and fungal resistance which doesn't support microbial growth, ideal for any healthcare application and environment where infection control is critical.

Key features

- Seamless
- Can create free flowing forms
- Strong
- Non-porous
- Scratch and stain resistant
- Bacterial and fungal resistant
- Does not support microbial growth
